- Webflux

Plusses

GCP or AWS or Azure
Caching

Day-to-Day

Insight Global is looking for a Backend Developer to help support

one of our Largest Retail Clients. This candidate will be involved in a personalization project that caters every customers needs and advertises those on each platform on IOS and Android and Web. This successful candidate will have hands on experience working from the Architect and Design phase all the way to Development and Deployment.

Your profile looks like an excellent fit for the role! We are working directly with the hiring director and have interview times scheduled for this week. If you are interested please respond back with an updated copy of your resume or send your contact details to Nickvon.wuthenau@insightglobal.com

Should this position not be a match with your current goals please respond so I can update your profile accordingly and reach out with more relevant roles.

Regards,

Nicholas von Wuthenau
