Hello KUHELI,

Greetings from Intelliswift!

For one of our esteemed clients, we are looking to fill a Sr.
Software Engineer (Spark/Scala) role based out of Canada. This
is a 100% remote role.

Here's the Job Description & related details for the role.

Role : Sr. Software Engineer (Spark/Scala)
Location : 100% remote
Position Type : Contract

Job Description: Role:
Very good in Java, Scala, Spark & SQL Experience designing
and implementing end-end data pipelines especially clickstream
data

Able to work independently by taking high level requirement's

Good at triaging data quality issues and fixing them

Good at debugging and optimizing spark jobs.

There will be 2 rounds of interview, one focused on programming,

2nd focused on big data, there may be third one

If you are interested to pursue the engagement, please send us

your updated resume along with the best time to reach you.

Thanks,

Amit Ambastha
